ABOUT ME

My name is Konstantinos. I've worked on various projects, mostly in frontend development with some backend experience.
Currently, I'm gaining practical experience as a freelance developer for Aqua Integra, building their website.

Even though I have more experience in frontend, I'm eager to expand my horizons and work on other development fields. I'm excited to learn new technologies and continue evolving as a developer.

STRENGTHS

Communication   Adaptability
Problem Solving   Teamwork
Innovative   Fast Learner
